In the dystopian universe of *The Human*, Thomas Scott, The Temporal Corps attempts to correct disastrous events through the use of time machines. Viewed from disparate angles, the stories in this book tell of resulting paradoxes and loops as timelines collide and intertwine. Including some of the author's evocative poetry and many a fascinating twist, this book will take you on a journey through creative timelines, conceived within a Bi-Polar Mind. <http://myBook.to/Ravings>
