

ULAN

Prequel to
The Patch Man

A young Summian woman witnesses the murder of five Clan Hemite boys by Imperial Panthers. Shamed that she could do nothing but watch this tragedy, she returns the boys' ID tags only to discover Clan Hemite blames her for their deaths and she is now targeted in a blood reckoning. With the help of Bas, a former underground fighter, she flees her village.

Bas travels with Ulan to Sum-Est, home of the Lore Master, Ja, in hopes the young woman will benefit from the mystical training to become a Lore Mistress. But the Red Ward from Clan Hemite has vowed to fulfill the blood reckoning and follows Ulan's trail to Sum-Est. Ulan undertakes the rigorous Lore training so she will be strong enough when she again meets the Imperial Panthers, but becomes sidetracked by the beautiful novice, Tara.
