Ka, half raptor and half man, must undertake three tests to become a member of the elite Icarian Squadron, flyers who dedicate themselves to the destruction of Summia and to an alliance with Imperiana. In order for him to succeed, he must first overcome his own fears, but in the process he discovers how Imperiana has manipulated the trials and Ka's own emotional needs. Captain Harriman, under Imperial command, is ordered to make sure the fledgling flyers bow to Imperiana's control. Will Ka be able to survive the trials and become an Icarian as his father was in the first war between Imperiana and Summia, or will his failure lead to disgrace and exile from the Rookery? <http://mybook.to/icarian>
